1. The following is an examiner's statement of reasons for allowance: For reasons consistent with those given by applicants in their remarks filed Sept. 8, 2003, the instant claims are neither taught nor suggested by the prior art. The Examiner also draws attention to the showings in the Declaration filed Dec. 9, 2002, which show the unexpected improvements which result from polymerizing the glycidyl functional acrylate polymer in the presence of a reactive diluent. For the record, the Examiner notes that Nakai et al. (previously cited by the Examiner) does not teach or suggest the instant claims since 1) it fails to teach or suggest a hardener, 2) it teaches polymerizing glycidyl monomers as one of many reactants and 3) it only embraces a small range of the molecular weight for the claimed polysiloxane.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
